TO RESUME WORK AT THE PAMICO PLACERS

ORIGINAL OWNERS WILL DEVELOP THE GROUND THROUGH THE BRADY SHAFT

Messrs. Burns, Blackburn and Schumaker, the three men who first opened up the Pamlico Placer mines to the stage of development where they attracted the attention of capitalists, have returned to the Pamlico district, and are about to resume operations on the placers. It will be recalled that these men interested United States Senator Key Pittman and S. H. Brady, a prominent mining man of Tonopah, in their property a few months ago, with the result that a large force of men was put to work on the ground. After a few weeks' trial, Pittman and Brady quit the ground, which reverted to the original owners.

According to Mr. Tony Schumaker, who has been in town for a few days, he and his partners believe that with proper handling the placers can be worked at a good profit, they stating that Pittman and Brady attempted to operate on too extensive a scale, says the Walker Lake Bulletin.

Mr. Schumaker was joined this

TONOPAH MEN BUILD OIL FLOTATION PLANT

WILL WORK 60,000 TONS OF DUMP ORE ON THE GOLDFIELD FLORENCE

A number of Tonopah people, with several outside capitalists are developing an industry in Goldfield which promises to be a very lucrative one. They have formed the Nevada Metals Extraction company, of which H. P. Campbell is president; Reuben Kelly, treasurer; E. H. Meade, secretary and F. A. Meade, metallurgist.

This company is erecting a 200 ton oil flotation plant, consisting of gyratory crushers, tube mill, two Janney emulsifiers, six Janney cells, two Janney cleaners, Oliver filter and patent dryer for concentrates.

The mill will be completed about the middle of February and will cost in the vicinity of \$50,000. It is on the Goldfield Florence ground and the company has a lease on all the dumps of the Florence, some of which are almost of shipping grade, but contain so much copper that they cannot be economically cyanided. The company expects to work about 60,000 tons, on which it will pay 10 per cent royalty. At the expiration of two years, when the lease expires, the Florence company has the privilege of purchasing the mill at the cost to the Nevada Metals Extraction company for installation, when it will hoist ores and supply the plant.

FLORENCE WORK IN NEW GROUND

EXPLORING TERRITORY ABOUT STOPS OF FAMOUS OLD BONANZA LEASES

In the northern extremity of the Florence Goldfield property development is being advanced in the neighborhood of the old stops of the Reilly lease, from which a large production of rich ore was made in the early days of the camp. A cross-cut was extended to this ground, at a depth of 250 feet, from the north drift that exposed some ore of shipping grade in the new vein, near the Combination Fraction boundary. The work near the Reilly stops is of particular interest, in view of the fact that only ore of high grade could be mined at the time that lease was operated, says the Tribune.

Just south of the Florence hill, near the north end-line of the Red King claim, Superintendent Clapp has started development work to the west of the old Rogers Syndicate lease workings, at a depth of 530 feet. The stops in this ground also produced a large tonnage of picture ore during the early leasing period and the territory to the west of this leasehold is now to be explored for the first time. It is believed that this ground holds possibilities for opening new bodies of pay ore.

SENIORS SUCCESSFUL AS MERRY MAKERS

STUDENT BODY AND FACULTY GUESTS AT A HARD-TIMES PARTY

The seniors of the high school entertained the student body and faculty with a hard times party in the high school gymnasium on last Saturday evening. Games and dancing were enjoyed by all, until a corps of cops under Chief of Police Bowler started to arrest innocent bystanders for the most trivial causes. Then for the few unfortunate the fun was over.

With the jail nearly filled, a court was convened. Mr. Dilworth acted as judge, Joe Murphy as prosecutor, and John Cuddy as public defender. The charges were clever, and the punishments severe, since they consisted in the main in entertaining those not in jail. A few unruly prisoners were given the third degree, much to the amusement of all.

At a late hour the upper class girls appeared with heaping platters of "hot dog" sandwiches. There were more than plenty for all, and rumor has it that Pat Pollard ate seven. The whole evening was an unqualified success, and many congratulations are due the seniors as fun makers.

morning by Mr. Burns, and they left immediately for the district. The property will be worked through the Brady shaft, which is down a depth of 120 feet. A new hoist will be installed at once, and a force of eight men put to work, with the probability of an increase soon.

SCHUBERT SYMPHONY COMPANY IS COMING

ELKS PLAN AN EVENING OF PLEASURE FOR THEMSELVES AND FRIENDS

The Elks and their friends are assured of an evening of pleasure when they are entertained by the Schubert Symphony company, which has been secured for a concert that will be given in the Elks' home in the near future. The following is from the Dallas Times-Herald:

The double attraction at the Casino last night brought out one of the largest Monday night crowds ever seen at Lake Cliff. Every seat in the house, upstairs and down, was taken, and there were many who were content to stand rather than miss the unusual bill. Miss Corder received an ovation for her singing and Mr. Purcell was warmly received.

One of the features of the night was the singing of Miss Leeta Corder. She surprised the people of Dallas, even those who had heard her sing before, by the remarkable beauty of her voice and her unusual control of it. She sang the "Grand Valse," arranged by Veneziano from the opera of "Le Barbier de Seville," with sparkling brilliance and showed a wonderful range of voice and fine color. The audience took the roof off with applause and Miss Corder was the recipient of several splendid floral tributes. As an encore she sang, "My Love Is Like the Red, Red Rose," by MacDermid, and "There Is No Little Girl Like You" by Herbert Blumer which song was dedicated by the author to Miss Corder.

Mr. Percell, violinist, played "Zig-zag-weisen," by Sarasate, and as an encore Legende, by Bohm. He showed fine technique and got a richness of tone and delicacy of modulation that brought great applause.

STIMLER TURNS DEAL WITH EASTERN MEN

CONTROL OF HIS SILVER PROPERTY AT BELMONT PASSES TO CAPITALISTS

Harry C. Stimler, who is in from Belmont, has concluded a deal with a coterie of eastern bankers, headed by Wm. L. Patterson of Council Bluffs, Iowa, whereby he conveyed control of his property at Belmont, known as the Sunrise group of claims. It will hereafter be known as the Bill and I Mining company's group, as soon as it is developed and incorporated.

This group consists of four claims. It is developed to a depth of 120 feet, with drifts on the 90-foot level. In one of the drifts Mr. Stimler has 18 inches of ore that he estimates will run 1000 ounces in silver.

The purchasers of control will install machinery and drive on incline to a depth of 500 feet, running laterals each fifty feet. Negotiations are in progress for machinery and electric power. The property is only a mile from the power line that runs to the Monitor Belmont property.

Mr. Stimler has been chosen general manager of the company and will have charge of the development work. As soon as the roads are open ore shipments will begin to the Western Ore Purchasing company.

STATE TREASURY IN NO DANGER OF OVERFLOWING

The state papers are publishing an item headed "State Treasury Groans with Riches." This need cause no alarm, as there are plenty of leeches around the strong box that will take great pleasure in rendering "first aid" and relieving its plethoric condition—they won't groan while doing it either. We opine that the notes of agony emitted by the treasury are not one-half so painful as was the extraction of the simoleons from the pockets of the taxpayers by the assessors, judging from the chorus of howls that went up from every county in the state, the echoes of which will probably be reverberating at the next election.—Standard.

INSECTS TO WASHINGTON

Some of the vinegerones and scorpions in the collection of Captain Davis of Rawhide were so rare and valuable that they were sent to the Smithsonian institute at Washington. Captain Davis had among the collection one of the most peculiar insects on the desert. It is called the "tarantula hawk" and preys on the giant spider of the desert. The tarantula hawk is not a hawk at all, but a giant beetle, which flies low over the desert in search of the tarantula. When the beetle finds one of the spiders it engages in a battle and always comes out victorious.

TONOPAH MAN FINDS CHILDREN IN EAST

COMES WEST, GETS RICH AND RETURNS AFTER TWENTY-ONE YEARS

Mr. and Mrs. Carl E. Guenther of 25 Pleasant avenue, Union Hill, N. J., are taking leave of their friends, and telling them that soon they are to start for Nevada to make their home hereafter with Charles Wyckoff, Mrs. Guenther's father, says the New York Times. And since Mrs. Guenther was supposed by every one to be an orphan, and actually thought so herself, she has a chance to tell again and again how her father, having gained great wealth, sought her for years, and found her only a few days ago, the Monday following Christmas.

Mr. Wyckoff was a resident of Union Hill twenty-one years ago, and Mrs. Guenther was then 21 months old. There was another baby, Russell, 3 years old, and Mrs. Wyckoff, scarcely more than a girl herself. She died and Mr. Wyckoff, sending his babies to their grandmother, Mrs. Dora Dehn, started west to forget his grief over the death of his wife and to make his fortune.

For years things went badly with him and he did not write, ashamed to confess that he had failed to succeed. But then he began to prosper. He became interested in copper and gold mines in Nevada, and presently found himself a wealthy man.

He wrote to his mother-in-law and to friends, but all his letters seemed to miscarry. Then he sent his private secretary to try to find his family. The secretary returned after several months to report that all had disappeared. Mr. Wyckoff was not satisfied, and several months ago he came east to investigate for himself.

For weeks he could get no trace of Mrs. Dehn or his children, but at last he encountered an old friend in the street, and from him learned of his daughter's marriage and her address. He found his son, also, who was living in West Hoboken, as well as Mrs. Dehn, who after moving to several towns in New Jersey, had returned to Union Hill to be near her granddaughter. Mr. Wyckoff gathered his family together, and then insisted that all return west with him. He said he had more than enough money for every one, and, for the rest of his life, he wanted to have his family around him. They will depart for Nevada shortly.

FINE PIANO IS WON BY MRS. DENNIS HILL

The voting contest for a fine piano, which was conducted by the firm of Ryan & Stenson, the house of quality, in connection with its big sale, was concluded at 10 o'clock Saturday evening. The contest grew very exciting toward the close.

The judges in charge of the ballot-papers were Frank J. Cavanaugh and F. P. Kerns. They made the following announcement:

Mrs. Dennis Hill, \$56,462, \$600 piano; Miss Teresa Kennedy, 475,111, 15-jewel watch; Miss Gladys Douglas, 186,650, 7-jewel watch; Miss Christine Cornelius, 148,595, toilet set; Miss Helen Kinsella, 31,740, cash credit toward purchase of a piano, Miss Gai-nell Gingles, 9,461, same prize as awarded Miss Kinsella.

The best of feeling prevailed between the successful and unsuccessful contestants, and all left feeling that the contest had been most fairly contested. The trading books that were purchased are redeemable by any person at any time in merchandise.

TOWER STILL WORKING

(By Associated Press.)

PARIS, Jan. 17.—The Eiffel Tower which transmits the official and supposedly exact hour three times a day to ships scattered over the sea, as well as to all land wireless stations, suspended its morning transmissions recently; the effect was a general inquiry as to whether the Eiffel Tower had gone wrong. It is still working twice a day.

AMUSEMENTS

BUTLER THEATER

Tonight's program at the Butler will consist of Pathe Weekly of current events and happenings from all over the world, and a Metro production in five elaborate parts, entitled "Black Fear," presenting in her debut in motion pictures, the accomplished stage star Grace Elliston, creator of the principal roles in "The Lion and the Mouse" and other Broadway successes, and supported by the popular dramatic artists Edward Brennan and Grace Valentine. It is a powerful and dramatic portrayal of the insidious growth of the cocaine evil and its menace to modern society. "Black Fear" is a gripping photo drama dealing with the rapidly increasing cocaine habit which the authorities in the larger cities are striving to correct. There are many interesting scenes of New York life from many angles, in this big feature, which promises to be the sensation of the season. Among the more notable scenes are a faithful reproduction of the Juvenile Court in New York City, a Supreme Court scene, a big ball room scene, the home of a wealthy broker in Riverside drive, and many other interesting locales in the metropolis. No expense has been spared in its production. Tomorrow, "The Arab," a Lasky production, with Edgar Selwyn and Theodore Roberts; the preliminary reel being the Paramount travel pictures.

NOTICE TO WOMEN OF WOODCRAFT

The meeting which was to be held tonight will be postponed until next Monday night, January 24th.
